Bangladesh Tea Market

ANNUAL REVIEW

Season 2024/25

CROP & WEATHER

Bangladesh recorded its third highest crop so far by producing 93.04 M.Kg of Tea in the season. Although the preceding year was the year of highest crop recorded for the country, adverse weather conditions accounted for lesser volume of rain at the start of the season, causing a decline in the crop particularly for the month of May which was the lowest for many years.

Owing to adequate rainfall in June a more steady pace was set for the following month and a strong recovery was made.

However, from then on, erratic rainfall severely affected the cropping pattern and during heavy months of August and September tea productions declined sharply over last few years. October was an exception where nearly 15 M.Kg of tea was produced. Remaining months, i.e. November and December also accounted for less production.

In all, Estate sector contribution was 78.65 MKg and that of BLF was 14.39 MKg.

QUALITY

A fair improvement in quality was seen during the season 2024-2025. However, first flush teas were not quite as useful as in the previous season owing to very dry conditions in the early months of the growing season. Quality steadily improved with the onset of second flush and could be considered to be superior to previous season's. In the monsoon months, owing to heavy downpours overall quality was adversely affected but Autumn teas showed a recovery in cup quality, generally being not as thin or plain as was in the previous season's. December production as in the previous season's reflected seasonal decline and barely suitable for wide section of the trade.

DEMAND AND MARKET DYNAMICS

The first sale of the Season started off on 29th April, 2024 with quite a sizeable offering of 1.43 M. Kg. as against 0.82 M.Kg in 2023 which met with a very strong demand from Loose tea buyers who dominated the market, leading to a high level of price, averaged at Tk.268/- per Kg. In the similar sale previous season the average price was Tk. 240/- per Kg. The next few sales saw a slight decline in quality and with increased volume coming up for sale price tended lower and ended at around Tk. 220/- to Tk. 235/- per Kg for the good types. Arrival of the second flush teas in the auction from first week of June generated a greater competition from the Blenders which resulted in higher prices. Good quality teas were being quoted between Tk.250/- and Tk. 260/- per Kg but lesser descriptions were selling between Tk.220/- and Tk.230/-.

Comparative Auction Sales results upto and including **June** is given below :

| Season 2024-2025 | | Season 2023-2024 | |
|-------------------------|-------------------------------|-------------------------|-------------------------------|
| <i>Quantity (in Kg)</i> | <i>Average Price (per Kg)</i> | <i>Quantity (in Kg)</i> | <i>Average Price (per Kg)</i> |
| 8,161,305 | Tk. 227.02 | 12,571,020 | Tk. 209.63 |

August sale recorded a greater weight of tea on offer causing in a general drop in price levels with the exception of bright teas which held their values.

From beginning of September more demand was forthcoming from Blenders as well as Loose tea buyers resulting in price appreciation often by Tk.5/- to Tk.8/- per kg, particular for the bright liquorizing varieties. Better Medium teas were also attracting more interest.

Comparable Sale figures upto and including **September** is given as follows:

| Season 2024-2025 | | Season 2023-2024 | |
|-------------------------|-------------------------------|-------------------------|-------------------------------|
| Quantity (in Kg) | Average Price (per Kg) | Quantity (in Kg) | Average Price (per Kg) |
| 35,140,983 | Tk. 211.36 | 39,744,965 | Tk. 199.58 |

Demand continued strong throughout October and November for all varieties except the plain which witnessed a drop in price. December sales saw less demand from buyers particularly for low Medium and plain varieties. Given below is the comparative sale figures upto and including the month of December,

| Season 2024-2025 | | Season 2023-2024 | |
|-------------------------|-------------------------------|-------------------------|-------------------------------|
| Quantity (in Kg) | Average Price (per Kg) | Quantity (in Kg) | Average Price (per Kg) |
| 64,097,755 | Tk. 209.43 | 69,244,342 | Tk. 187.23 |

In the New Year, the offerings in the auctions showed a decline in quality and consequently buyers were operating more selectively whereby coloury bright teas were being well supported at Tk.220/- to Tk.225/- levels but price realization for plain teas fell sharply and barely stayed over Tk.160/- base price for the period extending upto the last sale of the season held on 21st April, 2025. The withdrawals were very heavy and in some sales it was more than 80% of the teas catalogued. Consequently, there is a large carryover of teas in the New Season's sales.

Sale Statistics for the entire Selling Seasons is given below:-

| Season 2024-2025 | | Season 2023-2024 | |
|-------------------------|-------------------------------|-------------------------|-------------------------------|
| Quantity (in Kg) | Average Price (per Kg) | Quantity (in Kg) | Average Price (per Kg) |
| 85,060,932 | Tk. 203.99 | 94,229,463 | Tk. 171.91 |

The price obtained for Season 2024-2025 is substantially higher due to a drop in volume.

GLOBAL TEA SCENES IN BRIEF 2024

Global tea production recorded an increase in last year. A total quantity of 7.05 Billion Kg. of tea was produced as against 6.72 Billion Kg. in 2023, augmenting the supply of tea by 325,548 Tons. China was the largest contributor having produced 3.74 Billion Kg. as against 3.33 Billion Kg. in 2023 maintaining a share of 55% of the world tea crop. Next Was India which produced 1.284 Billion Kg. In other Asian Producing countries there has not been any significant change from previous year's outturn except for Vietnam which produced 180 M.Kg. against 170 M.Kg in 2023. In the African Continent, Kenya's crop continued to surge ahead and broke all records having produced 598.5 M.Kg of teas as against 570 M.Kg. Bangladesh produced a smaller crop.

Of the Exporting countries, Kenya maintained its ascendancy being the top Exporter having shipped out the highest quantity ever at *594.5 M.Kg significantly up from their 2023 export of 522 M.Kg. Next is China who exported 374.4 M.Kg of which green tea is the major component. India exported a record volume of tea at 254 M.Kg which surpassed all previous records. Other exporting countries showed a smaller gain.

Worldwide, import has recorded an increase as the total import stood at 1.91 Billion Kg. in 2024 as against 1.77 Billion Kg. in 2023, about 52 Thousand Tons more tea than the previous year.

Globally, the imports have been larger than the previous year as it stood at 1.745 Billion Kg as against 1.693 Billion Kg.

Of the Major Importing countries Poland, Iraq, USA and UK shipped in more tea whilst Pakistan, Russian Federation and Egypt who accounted for bulk of world's import of tea procured a lesser quantity. Morocco continued to be the largest importer of Green Tea as it has imported 76.0 M.Kg.

*Source : ITC

Producing countries continued to retain more teas for their own consumption and it is pleasing to note that it touched 5.1 M.Kg. up from 4.8 M.Kg. in 2023.

Annual auction prices of tea for the Past Calendar Year shows a fair variation, whilst Calcutta auction recorded a sharp rise from INR 208/- per kg in 2023 to INR 242/- in 2024, Mombasa, (Kenya) prices were lower at USC218 as against USC224 in the previous year. In that period, Chittagong auction prices was Tk.186.92 as compared to Tk. 184.70 in 2023.

HIGHLIGHTS

1. The annual crop for the season is 93.04 M.Kg as against 102.9 M.Kg in the previous. Estate sector produced 78.65 M.Kg as against 84.93 M.Kg in last season. Bought Leaf Factories in Panchagarh produced 14.39 M.Kg in season 2024-25 as against 17.97M.Kg in the previous.
2. 85.06 M.Kg of tea was sold in the season as against 94.23 M.Kg in the last season.
3. Price realised in the auctions was Tk 203.99 as against Tk 171.91 in the previous season.
4. Breakdown of Estate and BLF teas is as following-

| Category | Season 2024-25 | | Season 2023-24 | |
|----------|----------------|------------|----------------|------------|
| | Qty (MKg) | Avg (Taka) | Qty (MKg) | Avg (Taka) |
| Estate | 74.4 | 209.80 | 79.9 | 183.19 |
| BLF | 10.6 | 163.21 | 14.9 | 111.41 |

5. Decreasing trend in import of tea continued and it went down to 0.002M.Kg in 2024
6. Export of Bangladesh Tea was doubled and reached to 2.44 M.Kg from 1.03 M.Kg last year.
7. At the outset of the season 2024-25 a minimum price for Tea was introduced by the Tea Board which had a positive impact at the auctions.

FUTURE PROSPECTS FOR 2025

We are optimistic that Bangladesh tea will have a bright prospect in the ongoing season, barring of course, unforeseen circumstances which may cause disruptions in the smooth running of the economic life of the nation.

On a positive side, we must state that the insurmountable difficulties that faced the nation has largely been addressed and we are now on a path to a steady recovery from the economic downturn witnessed over the last several months.

Crop prospects appear to be only fair. However, a clearer picture would emerge from the crops at the end of August.

On the demand front, based on the trend seen in the last several years, good liquor teas will continue to be in high demand whilst the plain types could meet a very discriminating market. Furthermore, apart from the excellence in cup character, leaf appearance particularly grade size, sortation and bloom will play an important part in price determination. Whilst on the matter of grading, we would advise Producers to maximise the outturn of small Brokens, good size Fannings and all Dust particularly the smaller and grainer varieties.

The threshold price as stipulated by the government is a welcome incentive for the producers to upgrade the quality further in order to achieve the goal of higher price realisation.
